NSCC Libraries – At a Glance

September 2022 – May 2023

Highlights

IDEA2

NSCC Libraries Inclusion, Diversity, Equity, Accessibility and Anti-Racism (IDEA2) subject guides received over 20,000 views this year. We also added the Overdrive platform this year, allowing us to add new eBooks, audiobooks, and magazines to the NSCC Libraries collection and expand on our IDEA2 materials.

Just-in-time Video

We have begun creating a series of short, just-in-time videos to support student learning in the moment of need. Students can find videos related to using library resources, Academic Integrity, and APA Citation on our YouTube Channel. This collection will continue to grow as staff develop videos on additional topics.

Laptop Loan Program

NSCC Libraries has over 600 laptops available for loan. Students who require a laptop can borrow one from the library for a term, completely free of charge. Our laptops were loaned over 1,200 times this year, indicating that they were in-use year-round by students who required technology supports.

Classroom Learning

Libraries are a key support to faculty when it comes to meeting the outcomes for many courses. Over 4,900 students participated in classroom sessions facilitated by NSCC Librarians. Topics of these sessions included Academic Integrity, APA Citation, Research Skills, Evaluating Information, Critical Thinking Skills, and more.

Electronic Resources

eBooks
11,001 downloads

Journal Articles
10,628 downloads
