

We're the only college east of Toronto approved for the Mitacs Accelerate Umbrella Program.

nsccc

Mitacs Accelerate Umbrella Program

Get help doing research

Access funding to hire an NSCC student or new graduate to do research.

Augment your R&D budget

At half the cost to you, an intern works for a minimum of four months up to a year.

Easy application

Pre-approved funding results in a shorter application and expedited process.

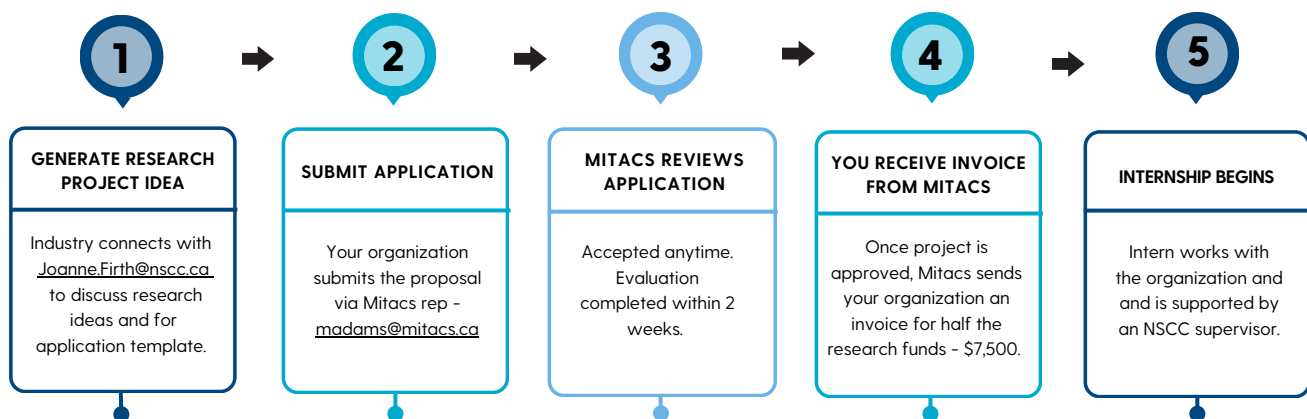

What it is

- Matched financial support for companies that need research expertise.
- Pre-approved funding for 100 projects a year for two years in area of environmental sustainability - focus on forestry and oceans sectors.

How it works

- A student, or new graduate, an NSCC supervisor and a partner organization develop a research project.
- The intern works for the company and meets regularly with an NSCC supervisor to make sure the project is moving forward successfully.
