

<i>Procedure</i> <i>Emailing a Large Number of External Recipients</i>	<i>Policy</i> <i>Electronic Mail (Email)</i> <i>Applicable Section: 1.04</i> <i>Security and Integrity</i>
---	---

PROCEDURE

NSCC email account holders are not permitted to send messages to large numbers of external email recipients, unless a College business requirement is clearly identified. External recipients include anyone with a non-nscc.ca email address (gmail.com, hotmail.com, etc.). Distribution to large numbers of external email recipients must be managed through an email campaign tool that has been approved or supplied by the College. **Please note that not all requests to send large numbers of emails to external recipients will be approved.**

Exceptions: Where a business unit has an ongoing requirement to email a large number of Students using their “preferred” email addresses (non-nscc.ca accounts), a Help Desk Ticket is NOT required. Examples include, but are not limited to, messages to Students (using their non-nscc.ca accounts) about tuition and/or academic deadlines. **However, the business unit must keep the following in mind and plan accordingly, especially for time sensitive information where an action is required by the recipient:**

- When sending external emails to non-nscc.ca accounts, email will automatically be sent at a rate of 100 recipients per hour. This is done to protect the integrity of the College email system and to ensure the College remains on the safe-sender lists of entities such as Google and Yahoo. This means, a distribution to 1000 external email recipients will take at least 10 hours.
- For large volume external emails **requiring** that all recipients receive emails immediately, please submit an IT Services Help Desk Ticket as described below.
- **NOTE:** when messages like the one described above are sent to Students’ nscc.ca email addresses (their W numbers), this is considered an internal email and no additional steps are required.

<i>Action</i>	<i>Responsibility</i>
<p>1. SUBMIT YOUR REQUEST THROUGH AN IT HELP DESK TICKET AND COMPLETE AS FOLLOWS:</p> <ul style="list-style-type: none"> • Title – Message intended for a large number of external addresses • Category – Email • Issue type – Distribution list set up • Description – please include College business requirement for the message, the return email address to which replies will be directed, the intended delivery 	Employee or Student
