PROCEDURE

The College occasionally receives requests for generic email addresses to serve specific business functions. An example of this would be admissions@nscc.ca or dining@nscc.ca where inquiries can be directed to a single point of contact at a Campus or the College.

Please note:

- The individual submitting the request is ultimately responsible for the account
- Not all requests will be approved
- An alternate address may be provided, rather than the specific address requested
- IT Services will maintain a record of all generic email addresses that are issued, with a commitment to review on a yearly basis with Communications.
- All accounts that have not been active for a predetermined period of time will be de-activated. IT Services and Communications will coordinate this work with the individual responsible for the account.

<i>Action</i>	<i>Responsibility</i>
