39.01	Sexual Violence	POLICY
--------------	------------------------	---------------

- b. The College may implement interim measures to address the following forms of risk when it receives information with respect to Sexual Violence and reasonably believes that such risk exists.
 - i. there is risk to the health, safety or security of the College community, or individual members of the College community,
 - ii. there is risk to the normal or effective operation of all or part of the College,
- c. The SVRT will be responsible for the assessment and imposition of interim measures.
- d. In urgent circumstances, where a Principal or Senior College Leader (as applicable) believes as a result of information received with respect to Sexual Violence that there is imminent risk to the health, safety or security of the College community, or individual members of the College community, a Principal or Senior College Leader (as applicable) may implement temporary safety measures to address this risk in accordance with the College’s safety procedures. In such circumstances, the Principal or Senior College Leader (as applicable) should promptly inform the Director of Diversity and Inclusion, as Chair of the SVRT, of the action taken. The SVRT may continue, remove or amend the temporary safety measures implemented by the Principal or Senior College Leader.

--------------	------------------------	---------------

- b. Where possible, any questions or concerns about confidentiality should be posed to an NSCC representative prior to sharing information with respect to Sexual Violence.
- c. There are limits of confidentiality and NSCC cannot guarantee complete confidentiality. Issues of confidentiality must be balanced against the College’s need to take appropriate action to promote a safe working and learning environment, and to respect due process and the College’s legal obligations. For example, NSCC may disclose information where the College believes:
 - i. confidentiality would inhibit the effective investigation, processing, resolution or referral of Reports or the imposition of disciplinary or remedial action;
 - ii. internal information sharing among College representatives is reasonably necessary, including to promote the safety of members of the College community, to assess the College’s obligations with respect to information received regarding Sexual Violence, to assess or implement interim measures or requests for accommodation, and to facilitate the investigation and decision-making processes;
 - iii. an individual is at imminent risk of self-harm;
 - iv. an individual is at imminent risk of harming another;
 - v. a child or other vulnerable person has been harmed or is at imminent risk of being harmed;

NSCC recognizes that a counsellor’s professional position carries with it confidentiality obligations, and expects counsellors to follow the professional protocol that governs their behavior and practice. Counsellors are expected to treat information received through a Disclosure as confidential, and only disclose this information in the exceptional circumstances permitted by the counsellor’s professional protocol. In the event of a conflict between the confidentiality provisions of this policy and a counsellor’s professional protocol with respect to disclosure of confidential information, NSCC expects counsellors to comply with their professional protocol.

e. Statistical Data

Data, excluding any personal or identifying information, regarding patterns and trends in Reports under this policy may be aggregated, analyzed and shared within the College for the purpose of maintaining a safe working and learning environment.
